SUMMARY

Full-Stack Developer skilled in Java and JavaScript (MERN stack), with experience building and deploying scalable web applications. Strong in Object-Oriented Programming, Data Structures and Algorithms, RESTful APIs, authentication, database design, and Agile development, with Git-based version control and NPTEL Silver certification in Java.

EDUCATION

IES College of Technology

Bachelor of Technology in Electronics & Communication Engineering

- CGPA: 7.3

Bhopal, MP

Sep 2023 – Present

Holy Mission Sr. Sec. School

Intermediate (Class XII)

Muzaffarpur, Bihar

Jun 2020 – Apr 2022

St. John's Academy

High School (Class X)

Mahua, Bihar

Apr 2019 – Mar 2020

TECHNICAL SKILLS

Programming Languages : Java, JavaScript (ES6+), SQL, HTML5, CSS3

Backend & Frameworks : Node.js, Express.js, RESTful API Development, JSON, Web Services

Frontend : React.js, Tailwind CSS, Responsive Web Design, UI/UX Implementation

Databases : MongoDB, MySQL, Database Design, CRUD Operations, Query Optimization

Core Concepts : Object-Oriented Programming (OOP), DSA, JWT Authentication, Debugging, Problem Solving

Tools & Platforms : Git, GitHub, VS Code, Eclipse IDE, Vercel (Deployment)

EXPERIENCE

Freelance Full Stack Developer

Vijai Bhava Law Firm | [Website](#)

Remote

May 2026

- Built and deployed a production-grade MERN website: React.js, Tailwind CSS Frontend, Node.js, Express.js RESTful API Backend, and MongoDB Database, following the full Software Development Life Cycle (SDLC).
- Implemented SEO-friendly dynamic routing and performance tuning; managed cloud deployment, hosting configuration, and production debugging.
- Followed Agile development practices using Git for version control, resolved production issues, and iteratively delivered features based on client feedback.

PROJECTS

Nourix – Adaptive Fitness Intelligence Platform | [GitHub](#) | [Live](#)

React · Node.js · Express.js · MongoDB · REST API

- Built a full-stack MERN fitness platform by designing RESTful APIs and MongoDB schemas to deliver personalized workout and diet plans, secure authentication, and efficient health data management.
- Built responsive dashboards with real-time fitness insights and implemented JWT-based authentication, API optimization, and Git-driven deployment for a secure, production-ready application.

Converse – Real-Time Chat Application | [GitHub](#) | [Live](#)

React · Node.js · Express.js · MongoDB · WebSocket · OAuth

- Built a real-time chat application using WebSocket, integrating Google OAuth 2.0 authentication and RESTful APIs for secure user authentication, session management, and low-latency messaging.
- Designed efficient MongoDB data models for real-time messaging while optimizing the application through responsive UI design, debugging, testing, and performance improvements.

ACHIEVEMENTS & CERTIFICATIONS

- Secured **3rd Place** at **IIT Bombay Techfest** Bhopal Zone (Sep 2024) and **Finalist** at the **Odoo Hackathon 2026**, showcasing innovative software projects among **20000+** competing teams.
- Earned the **NPTEL Silver Certificate** in **Programming in Java** and solved **100+** Data Structures & Algorithms (DSA) problems on LeetCode, demonstrating strong programming fundamentals and analytical thinking.

EXTRA CURRICULAR

- Selected as a **Sanchar Mitra Volunteer** by the **Department of Telecommunications (DoT, MPLSA)** to promote the Sanchar Saathi initiative, guiding citizens on telecom safety, cyber fraud awareness, and digital communication services.
