SUMMARY

B.Tech student with strong foundations in Java, JavaScript, Object-Oriented Programming, Data Structures and Algorithms, and software development. Experienced in building and deploying full-stack applications using React.js, Node.js, Express.js, and MongoDB, with hands-on experience in RESTful APIs, authentication, debugging, and database design. Strong problem-solving skills with a focus on writing clean, maintainable code and learning new technologies.

EDUCATION

IES College of Technology

Bachelor of Technology in Electronics & Communication Engineering

- CGPA: 7.5

Bhopal, MP

Sep 2023 – Present

Holy Mission Sr. Sec. School

Intermediate (Class XII)

Muzaffarpur, Bihar

Jun 2020 – Apr 2022

St. John's Academy

High School (Class X)

Mahua, Bihar

Apr 2019 – Mar 2020

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, SQL

Core Concepts : Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Backend : Node.js, Express.js, RESTful APIs, JSON, Web Services, JWT Authentication

Frontend : React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Databases : MongoDB, MySQL, Mongoose, Database Design, CRUD Operations

Tools : Git, GitHub, VS Code, Eclipse IDE, Vercel

EXPERIENCE

Freelance Full Stack Developer

Remote

Vijai Bhava Law Firm | [Website](#)

May 2026

- Developed and deployed a production-grade MERN application using React.js, Node.js, Express.js, and MongoDB, following software development lifecycle practices from requirement analysis through deployment.
- Designed RESTful APIs, database models, and responsive interfaces while debugging application issues and improving reliability, performance, and user experience.
- Used Git-based version control and collaborated with the client through iterative development, code changes, testing, debugging, and feature delivery based on project requirements.

PROJECTS

HealthUP – Adaptive Fitness Intelligence Platform | [GitHub](#) | [Live](#)

React · Node.js · Express.js · MongoDB · REST API

- Developed a full-stack MERN application by designing RESTful APIs, MongoDB schemas, and backend services for personalized workout and diet plans, secure authentication, and structured health data management.
- Implemented JWT-based authentication, CRUD operations, responsive dashboards, API integration, debugging, and performance improvements while maintaining clean and reusable application components.

Converse – Real-Time Chat Application | [GitHub](#) | [Live](#)

React · Node.js · Express.js · MongoDB · WebSocket · OAuth

- Built a real-time chat application using WebSocket, RESTful APIs, and Google OAuth 2.0 authentication for secure user authentication, session management, and low-latency communication.
- Designed MongoDB data models and implemented messaging workflows while debugging application issues, testing features, and optimizing responsive frontend and backend performance.

ACHIEVEMENTS & CERTIFICATIONS

- Secured **3rd Place** at **IIT Bombay Techfest** Bhopal Zone (Sep 2024) and **Finalist** at the **Odoo Hackathon 2026**, showcasing innovative software projects among **20000+** competing teams.
- Earned the **NPTEL Silver Certificate** in **Programming in Java** and solved **100+** Data Structures & Algorithms (DSA) problems on LeetCode, demonstrating strong programming fundamentals and analytical thinking.

EXTRA CURRICULAR

- Selected as a **Sanchar Mitra Volunteer** by the **Department of Telecommunications (DoT, MPLSA)** to promote the Sanchar Saathi initiative, guiding citizens on telecom safety, cyber fraud awareness, and digital communication services.
